OSHA 10 & 30 & Other OSHA Trainings

OSHA General Industry

This OSHA 10-hour course is intended for workers in General Industry. It is designed to teach workplace safety and reduce jobsite hazards. This course provides a convenient way for workers to learn about hazard avoidance, workers’ rights, filing an OSHA Complaint and more.

OSHA Construction

This OSHA 10-hour course is intended for workers in the construction industry. This course is to introduce students to OSHA. It will cover how to eliminate work-related injuries and fatalities, basic practices of identifying, reducing, and reporting hazards associated with their work.

OSHA 30 General Industry

This course emphasizes California Code of Regulation (CCR), Title 8 for General Industry Standards and compliance. The Cal/OSHA 30-hour General Industry training is formulated for safety directors, managers, forepersons, and supervisors having direct or indirect responsibilities for the safety of employees they supervise.

“The instructor was very knowledgeable and shared in a way that was relatable to the work that I do.”
– Previous trainee
