

ISO 9001-REVISION 2015

This course is designed by Quality Management System (QMS) professionals to assist you and your organization to get prepared for the 2015 revision of ISO 9001. The class will provide an overview of the ISO 9001 revision process, the new element/clause “High Level Structure” (HSL), the introduction of the “risk based thinking” concept, and a summary of the main changes. Upon request we can provide a detailed, section by section, review of the requirements of the ISO 9001:2015 international standard. This training is also intended for those organizations that have implemented or plan to implement other industry specific Quality Management System standards based on ISO 9001.

This class is interactive as well as discussion oriented. It is designed to be fully customizable to your employee training needs and we are able to conduct this training at your site or ours.
