

RESTORATIVE NURSING ASSISTANT

TRAINING RESOURCE CENTER

This is a great opportunity for CNA's with 1 year of experience, to advance their career and increase their employability!

For a \$25 refundable deposit, you can become a Restorative Nursing Assistant in one weekend, made possible by the Strong Workforce Grant!

? WHY?

The Quality Care Health Foundation (QCHF) has established a statewide registry for Restorative CNAs trained using the QCHF RNA Curriculum. The value of the RNA Registry is that it provides a central system for identifying and recognizing graduates of the QCHF RNA Curriculum. This makes the certification universal, and allows individual RNAs to carry their certification with them as they move to new assignments.

WHAT WILL I RECEIVE?

In addition to adding your name to the statewide registry of RNA's, you will receive and official certificate of completion from QCHF and an enamel lapel pin.
